The **KCSE Mean Grade** determines the programmes and institutions for which you can apply and go to. JIUNGE uses your **KCSE Mean Grade** and **subject grades** to automatically select all the programmes for which you meet their requirements. It reduces your much time spent searching or 'Google-ing' for a programme of your liking.

Your **KCSE Result Slip (image/pdf)** is important for verification purposes by the institution that you want apply to. Your **KCSE Result Slip** is **mandatory** as it will enable the university or college you have applied to, to accept you after the programme application in the identified institution. You will get an admission letter from the institution.

In case of any additional subjects that are not in the list, add **the Other Qualifications** section & the **Other Subject Grade** respectively; use the example shown.
